PROFESSIONAL SUMMARY

Recent Civil Engineering graduate proficient in industry-standard design software including AutoCAD, STAAD.Pro, and Revit. Completed a one-year specialization in emerging technologies at NIELIT. Seeking to leverage technical skills to contribute to successful projects.

TECHNICAL SKILLS

- **Civil Engineering Software:** AutoCAD, STAAD.Pro, SketchUp, Revit, ETABS
- **Core Competencies:** Structural Analysis, RCC Design, Estimation, Solar Integration
- **General & Programming:** MS Office (Excel, Word, PowerPoint), Python

Work Experience

Work-Based Learning Trainee (Level 1 & 2)

NIELIT (National Institute of Electronics & Information Technology),
[Start Date, 2., September 2024] – [End Date, 18., September 2025]

- Completed comprehensive training in emerging civil engineering & computer technologies.
- Gained practical exposure to project workflows using Technical tools.

ACADEMIC PROJECTS

Integrating Solar Energy in Residential Green Building Design | *B.Tech Thesis*

- Analyzed solar energy feasibility and Return on Investment (ROI) in Manipur through a comprehensive **household survey**.
- Developed strategic green building designs focused on energy independence and sustainability.
- Conducted structural analysis to ensure roof load capacity for solar panel integration.

EDUCATION

- **B.Tech in Civil Engineering** | Manipur Technical University | 2024
 - *Percentage: 66%*
- **Higher Secondary (Class XII)** | JIM Higher Secondary School, Imphal (COHSEM) | 2020
 - *Percentage: 64%*
- **High School (Class X)** | Douglas Memorial High School (BOSEM) | 2018
 - *Percentage: 73%*
